

Patient Name: _____ Birthdate: _____

Do you have a history of asthma or chronic lung disease? No Yes

If you answered "YES", please read the NIOX Test Disclosure and sign below:

ASTHMA PATIENTS ONLY
NIOX FUNCTION TEST DISCLOSURE

At Redding Allergy and Asthma Center, we implement the **NIOX MINO® Airway Inflammatory Monitoring System** to test lung function in our patients. It is a brand new tool designed to better diagnose and monitor your asthma. Along with the tests we currently use to look at how successful pharmaceutical therapy has been, the NIOX MINO will be an additional measure that tells us your level of lung inflammation. The device employs an easy and non-invasive method of a simple 10 second exhalation that is completely painless and even a little fun!

Some of the benefits of this new technology are:

- The possibilities of lowering your dose of medication when appropriate
- The ability to adjust medication based on your individual needs
- Insight into your treatments efficacy
- Better prediction of asthma relapse and exacerbation
- Early identification and close monitoring of airway inflammation

If the test is performed, we will bill your insurance provider for the appropriate charge. If the charge is not covered, you may receive a bill for \$25.00 to cover the medical costs of performing this sensitive measurement. If you do not wish to be charged for this test, please notify the staff prior to performing the test.
